

ROCKY FORGE NEWSLETTER

Notes from the Forgemaster

We will meet our usual time on Saturday April 11th at the shop located at:

986 West Briscoe Road

Williamsport, IN. 47993

Coffee and doughnuts at 8:30 to 9:15 for social time and a welcome to visitors.

The best news in a while:

I have sold all the machine shop machinery to a local buyer for \$1000. “He will not junk the machines”, he collects them. I was hoping for more money, however any potential buyers were just too far away to be interested. This way the machines will be gone “soon”, out of sight and out of mind. He expects to get the machines out within two weeks. So, we members need to move everything we are keeping to the south end so that he has access. I’m asking for as many members as possible to show up Saturday morning so the job can be done as quick and safe as possible. We also need to get all the tooling out of the shed for him. I have some tooling here at home that I’ll pack it up and bring it Saturday.

I like giving a tip of the month, however Carol has offered this months tip:

DONT COLLECT OLD TOOLS and STUFF FOR 70 YEARS.

Lunch Saturday will be ham and cheese sandwiches that the club will provide and with dishes brought in by you members. Part of belonging to this or any organization of hobbyist is the comradery and friendships that we develop. Sitting down to a meal together is a strong part of nurturing those ties.

Be sure to support our main source of income: “Iron in the Hat” drawings.

Hope to see a big attendance Saturday.

Ted
