

ROCKY FORGE NEWSLETTER

Notes from the Forgemaster

Our September hammer-in is this Saturday September 12th. Hopefully, the brutal heat dome will have lifted by Saturday.

Coffee and doughnuts will be available by 9:00 or maybe earlier.

At our last hammer-in several of you were working on a belt hatchet. That program needs to continue until you have accomplished the goal. We have a good selection of metal in the club's inventory to make several hatchets.

As for lunch I guess it's another brown bag time.

Bring your tool bag and items for the iron in the hat for a fun day of forging and fellowship.

See you all on Saturday.

Ted

Note from Dan Michael:

There is an event on September 18 and we could use some volunteers. It's the annual event where the Illiana group hosts 4th graders. There will be about 300 students and adults touring the grounds and we need to support it with a good turnout at the Blacksmith shop. We have a few volunteers already but can always use more. Start time is 9:00 AM and goes to 11:30 then 12:00 – 2:00.

Unless something changes, lunch will be brown bag. If someone wants to put together something, let me or Ted know.
