Volume 25 Issue10 – November 2026

ROCKY FORGE NEWSLETTER

Notes from the Forgemaster

Our November 14th meeting is on for this Saturday at 9:00.
Coffee, doughnuts and socializing, then a short meeting.
At the September meeting several of you attempted making a belt axe. We should continue with that exercise until you have all perfected the steps involved. I will bring examples and drifts to help you out.
Also, we need to upgrade our iron-in the hat drawing We've had too much junk. Please try to bring items you have made or very useable items. This is our only income source.
Lunch:
Charles Kemble and family will be with us (yay!!). Chuck is bringing his world famous "Blacksmith" Chili. Bring something to share that goes with chili on a nice fall day. It's always nice to sit down together for a decent meal, socialize and learn from each other. I hope to see some nice dishes or crockpots carried in for this meal.

For anyone planning to attend for the first time our address is:
986 West Briscoe Road
Williamsport, IN
47993

See you all Saturday with a tool bucket, iron in the hat and food in your hands.

Ted
765-491-2194
